Lesson Improvement Questions

Directions: Work in small groups to compare the original and revised “What’s For Lunch?” lessons. Decide how the following lesson improvement questions were (or were not) addressed in making the revisions to the lesson.

Lesson improvement question	Features in the original lesson	Improvements in the revised lesson
1. What is an authentic, engaging problem that students will address in this lesson?		
2. What are the academic standards, and higher order skills, like critical thinking, that students will work on?		
3. What are the teaching and learning activities the students need to address the task posed in this lesson?		
4. What tips will teachers need to adapt this lesson and use it with their students?		
5. What are some ways that technology can enhance teaching and learning throughout the lesson?		
6. How will student success be measured against the selected standards?
